

## 4 Problematic Areas With Politically Biased Politicians Influencing Media Sources (\* *Are my thoughts.*)

\* The deception starts with the premise that some sort of ideology or economical system will give people, not the government, the power to govern themselves. The lie is furthered by telling people they will be better off without competition and hardship and so the government will take care of them and make everyone equal.

### **Globalization / Anti Sovereignty**

#### **Globalization**

There are three main classifications of globalization political, social and economic.

\* *It boils down to giving one entity and oligarchy the final say on everyone in the world.*

Revelation 13 –“ It was given power to wage war against God’s holy people and to conquer them. And it was given authority over every tribe, people, language and nation.”

#### **Sovereignty**

synonyms: autonomy, independence, self-government, self-rule, home rule, self-legislation, self-determination, nonalignment, freedom.

\* This allows for more people to have local identity and control over their elections and direction in the world markets and commerce. It will promote less government regulations and inspire not just trickle down but also trickle up and upward mobility which is something the socialists forget to mention.

### **Socialism / Anti Capitalism**

Socialism is an economic system where the ways of making a living (factories, offices, etc.) are owned by a society as a whole, meaning the value made belongs to everyone in that society, instead of a group of private owners. People who agree with this type of system are called socialists.

\* *The **fallacy here** is that an **economic system** can give power to society and that governing powers and elite private owners won’t take advantage of the system. This is why our **Constitution is so worth protecting.***

Capitalism an economic and political system in which a country's trade and industry are controlled by private owners for profit, rather than by the state.

## **Atheism / Anti Religion**

Atheism - disbelief or lack of belief in the existence of God or gods.

\* Separating people from their belief systems is the first priority of a controlling spirit. In Communism, Socialism the first order of business is oppress those with spiritual beliefs.

Religion - the belief in and worship of a superhuman controlling power, especially a personal God or gods.

\* Is a confident attitude toward God and structures the spirit part of man and his soul.

## **Destroying Cultural Identity / Anti History**

**Cultural genocide** or cultural cleansing is a concept that involves the eradication and destruction of cultural artifacts, such as books, artworks, and structures.

\* *Communism and Socialism put restrictions on cultural identity as well as shape the educational institutions to teach along government goals and identity.*

**Cultural Identity** – A feeling of belonging to a group. It is part of a person's self-conception and self-perception and is related to nationality, ethnicity, religion, social class, generation, locality or any kind of social group that has its own distinct culture.

\* *My summation of this article is that when ever a politician or a lawyer is elected to an office their rhetoric will always be self serving and if you follow the money trail you will find they are better at people pleasing than actually serving the constituency. And further more if they can easily influence media sources and divide racial or economical groups they will find it more profitable than uniting these polarized groups.*

Psalm 52 – *When Saul lied about David.* “Why do you boast of evil, you mighty hero? Why do you boast all day long, you who are a disgrace in the eyes of God You who practice deceit, **your tongue plots destruction**; it is like a sharpened razor.”
