

## Video Sound Stage At Fort Bragg Grace Community Church

---

**\*Remember the time when we would take our children to school on the first day and meet the other children with the teacher. With excitement and high expectations it was one of the best times in our lives. This is just a dream now and as Christians we need to be ready to educate our young people in a different way through online vocational studies.**

As we move into a different phase of ministry the church buildings have many limitations for outreach into the local community during this health crisis. As ministers it is always a challenge to be good stewards over these wonderful houses of worship. I am exploring the possibilities for online streaming and would like to use the nursery at the Fort Bragg Grace Community Church.

I would like to build a sound stage in the first room called the nursery and it would be a semi-permanent space. I would be willing to keep the room ready for church uses and within an hour of boxing up stage equipment it could be back to the original room for other uses.

The reason for being a semi-permanent stage is so that video recording would be efficient and time saving when producing the series of educational material.

This room would be locked with a combination lock so that anyone with permission could use it or look in. I would like to leave many of the props and lighting set up so that we can schedule 4 appointments weekly. I also want to paint the west wall green so that we will have special effects and green screen backgrounds.

During video recording the church would be subject to a quiet time. We can work around church schedules and keep everyone informed. I see video appointments and recording times between 10:00 A.M. and Noon.

If possible we would like to start recording the first week of August. I hope to have open the video series by September 1<sup>st</sup> and at that time have a full schedule of classes ready to go.

Thanks for your consideration of this project and let me know if you have any questions or suggestion.
